### Are rabbits raiding your garden?

You love that your garden attracts beautiful butterflies, but the food also invites unwanted visitors, such as rabbits. If there was only a safe, harmless way to keep the furry critters from eating your veggies ...

Garden Gate® has the answer! With its unique, patented RABBIT REPELLER™, Garden Gate® Rabbit Repellers train thieving rabbits to eat elsewhere. In addition, this design keeps your vegetable plants safe and healthy, so you can worry less about rabbit damage to your garden vegetables.

The best part is, the RABBIT REPELLER™ is gentle on rabbits and won't harm any other furry critters!

With Garden Gate®, you'll get a design that:

- keeps budding vegetable plants safe to thrive and grow
- is rabbit-proof
- uses green technology and is all-natural
- protects a garden area up to 6' in diameter
- protects the plants from other furry critters
- is impervious to weather damage
- attracts a wide show of butterflies
